

## BE THE BOSS!

Try these commands on your husband. He will gladly obey.

(Print this for your reference)

Just say what is in Red and do what is in blue.

### On Your Knees

Get on your knees.

Kiss his neck and ears. Whisper to him “pull out your cock but don’t stoke it.”

Stand in front of him, remove your pants and say, “Eat me!” (let him lick your pussy for about a minute)

Put your hand under your cock. Put lube on his cock/hand.

Turn around and face away from him.

We are going to play a game. The further I bend over the faster I want you to stoke.

Tease him as you bend over in front of him showing off your pussy.

### Eyes Closed

All commands in this exercise are to be done while you lay beside him and whisper into his ear while you kiss his neck and ears and rub your hand through his hair.

Close your eyes!

Reach down your pants and rub your cock for me.

That’s a good boy. Make that cock hard.

Let me see it. Keep your eyes closed.

Very nice, open your hand and I will put some lube on it.

Now stroke it while I watch.

Keep kissing his ear and rubbing your hand through his hair.

Bring yourself to the end of cuming, but don’t cum yet.

Watching you is making me wet.

I want to feel you stroke yourself. Place your hand on top of his as he strokes.

Please cum for me.

### I Need a Favor

In the morning immediately after your man gets dressed for work...

Before you leave, I need you to do something for me.

I need you to stand facing the wall with your legs spread.

Rub your hand between his legs while his clothes are still on.

I want you to think of me all day.

Put your hands on the wall and don’t move a muscle.

Undo his pants and pull them down but not his underwear. Keep rubbing your hand between his legs with his underwear still on. After a bit, but down his underwear and grab some lube.

Lay on the end of the bed!

Stand between his legs, lube your finger and rub it into his ass while you stroke his cock until he cums.

### **A Foot Massage**

While your husband is laying or sitting in bed...

Stand at the end of the bed and begin to give him a foot massage?

Spread your legs so I can see your cock better.

Will you stroke it for me?

I want you to cum while I give you a foot massage.

Feel free to reach further up and massage his legs and inner thighs as he strokes. You might even give it a few licks.

### **I Dare You**

At some unexpected moment when he is not inside the house.

I dare you to pull out your cock and stroke it for me.

### **Surprising View**

While your husband is in the bathroom or another room leave your clothes on but pull down your pants to your knees and lay on the end of your bed with your legs in the air holding your knees against your chest. The first thing your husband will see when he enters the room is your pussy. Say to him...

Can you fuck me please? I really just need your cock.

### **I Chair-ish Your Cock**

Place a chair or stool in front of a mirror, a makeup table or bedroom mirror will work well)

Sit in this chair for me.

Close your eyes.

Stand behind him and gently rub your hands through his hair and around his ears. Gently kiss his neck and around his ears.

Reach your hand down his chest to his pants and rub between his legs.

Whisper in his ear. "Take out your cock for me." Stoke it slowly. Keep your eyes closed!

Turn around and face me.

Get on your knees and suck his cock while he sits.

Turn around and face the other direction. Keep your eyes closed.

(He should now be facing the mirror again)

Grab some lube while he is doing this.

While he is still seated reach your arms around him and massage the lube onto his penis.

Stand up for me and open your eyes. Watch me stroke your cock. Do this a couple of minutes.

Grab my hand, I want you to stoke yourself using my hand when you cum.

## **Remote Control**

Required item – remote controlled vibrator of some sort.

Begin to nibble on his ear while he is laying in bed or on the couch watching TV.

Whisper to him...

“I want your cock to be mine, do as I say. Put your vibrator around your cock but leave it in your pants.

Tease him with the vibrator while he watches TV. After about 20 min.

Take your cock out for me. Continue to tease it for another 10 min.

Use the vibrator and your hand to stoke and tease him until he cums.

## **Don't Move a Muscle**

While you husband lays in bed whisper in his ear...

I want you to remove all your clothes, turn over onto your stomach and not move a muscle unless I say so.

Use your hands and items from around the room to tease his back side especially on his butt and penis area.

Turn over

Continue to tease him on the front side eventually giving him a happy ending.
